

jumpserver如何新建用户及分配资材

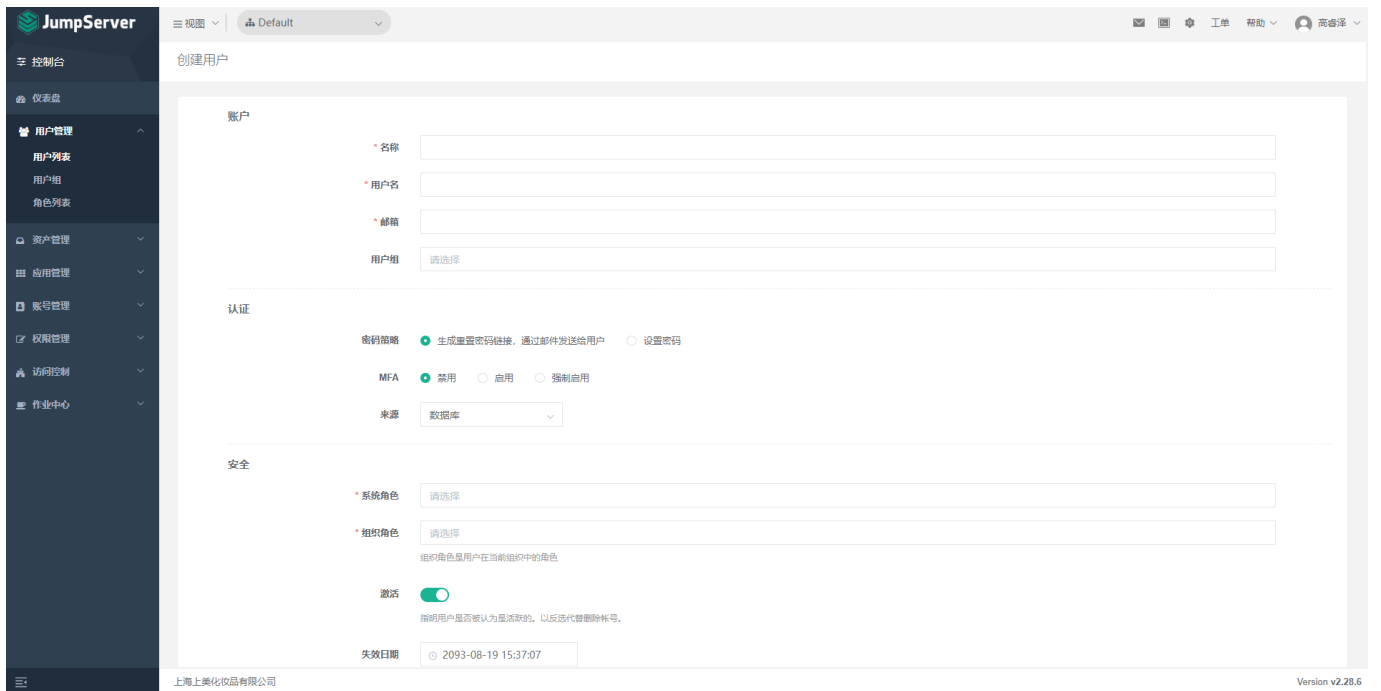

选择视图下控制台，左侧用户管理选择用户列表：

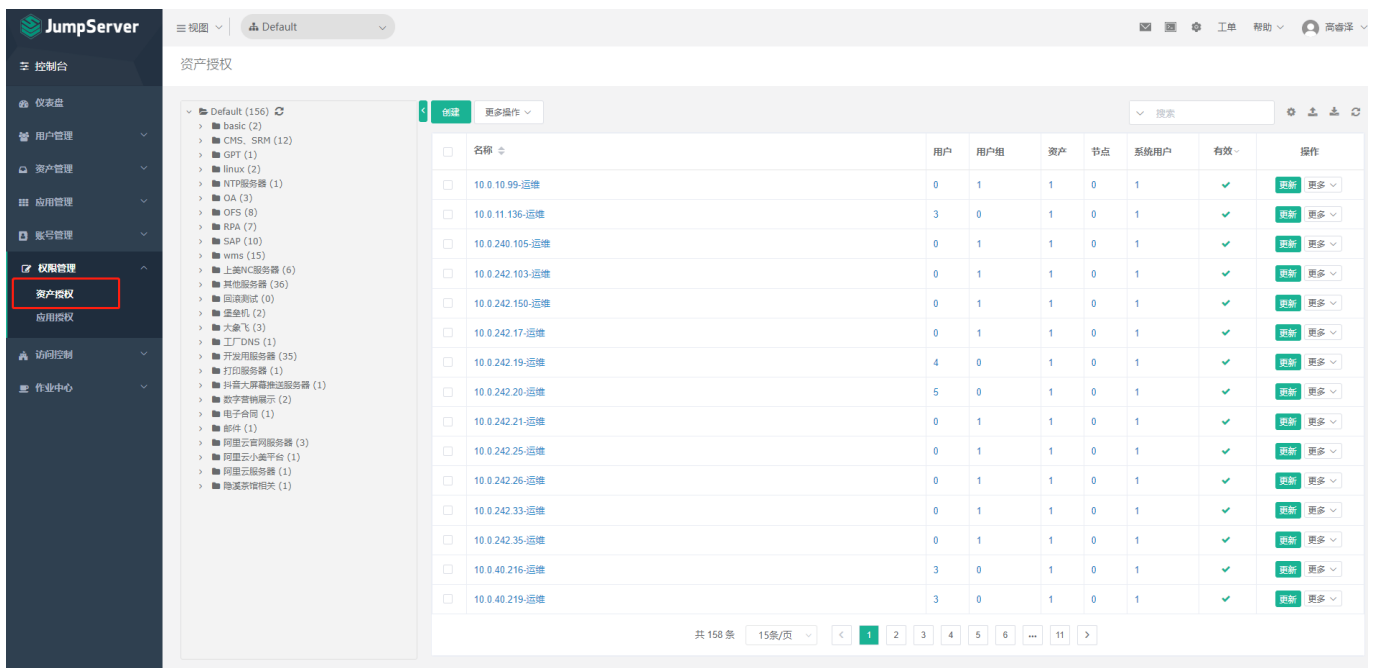

点击创建用户：

填写用户信息，公司员工用户名为工号，外部员工一般为名字全拼。系统角色和组织角色选择用户即可。点击提交。

选择左侧权限管理下的资产授权或应用授权进行资产分配，右侧选择需要分配的资产：

点击需要分配的资产后，选择用户或用户组进行用户添加：

The screenshot shows the JumpServer web interface. On the left is a dark sidebar with navigation items: 控制台, 仪表盘, 用户管理, 资产管理, 应用管理, 账号管理, 权限管理 (with sub-items 资产授权 and 应用授权), 访问控制, and 作业中心. The main content area is titled '资产授权: 10.0.10.99-运维' and has a sub-tab '用户或用户组' highlighted with a red box. Below this is a table of users with columns for selection, name, and actions. The table contains three entries: 孔梦琦(60006756), 高睿泽(gaoruze), and 杨鹤云(杨鹤云). To the right of the table are two panels for adding users or groups, both with '添加' (Add) buttons. The top panel is for '添加用户' and the bottom for '添加用户组'. At the bottom of the page, it says '上海上美化妆品有限公司' and 'Version v2.28.6'.
