

## WMS库存查询

1.确认所查询的物料所在的仓,如奉贤-成品仓、奉贤-物料仓、奉贤-返工仓

The screenshot shows the 'Inventory' module of the TTE system. On the left sidebar, 'Inventory' is selected under 'Warehouse'. The main area displays a search form with fields for '货品' (Product), '货位' (Location), '货品状态' (Status), '是否空仓位' (Empty仓位), '托盘号' (Pallet Number), and '区域' (Region). A red box highlights the dropdown menu for '货位' which lists '奉贤返工仓', '上美奉贤物料仓', '上美苏州成品仓', and '上美苏州物料仓'. Below the search form is a table with columns: #, 货位 (Location), 货品 (Product), 货品名称 (Product Name), 批号 (Batch Number), 在库数 (Stock Quantity), 移入数 (Inbound Quantity), 分配数 (Allocation Quantity), 冻结数 (Frozen Quantity), 库存状态 (Inventory Status), 生产日期 (Production Date), 失效日期 (Expiry Date), 入库日期 (入库 Date), 托盘 (Pallet), 区域 (Region), and 货主 (Owner). The table is currently empty.

2.库存查询,可以根据货品、货位、货品名称、库存状态、托盘号查询

This screenshot shows the results of a search for product '91010668'. The search criteria in the top right are: '货品: 91010668', '货位: ', '货品状态: 请选择', '是否空仓位: 否', '托盘号: ', and '区域: 请选择'. The search results table below has the same columns as the previous screenshot. It lists four items for product '91010668' at location '4-01-49-3'. The table includes a checkbox column for each row. The last row shows a total of 4 items found and 0 selected, with a note '库存数量: 99' at the bottom right.
